### Description

*Provide a short description of the event and its activities.*

In this third event of our weUESoUD project, we started to work on the goals we proposed in our application, namely the second theme: "Lithuanian women against the authoritarian regime of the Soviet occupation".

We highlight in the activities that took place during the days of the event, the 2nd day of activities with the official presentation of the project to the local community and the media in the Vilnius City Hall building that took place in the morning. In this place also took place the Conference: "Lithuanian women against authoritarian regime during the Soviet occupation", with the presence of local experts. In the afternoon we made a cultural visit to the historical centre of Vilnius.

On the 3<sup>rd</sup> day, we travelled to the city of Ukmerges and there we had a reception at the Ukmerges City Hall, which was followed by a musical performance by the young musicians of the local music academy. Also, during the morning, we had a round table with all the delegations participating about the theme: "The role of women in the new struggles for democracy in Europe". In the afternoon we conducted a guided tour on the city centre and went to "Smetona Manor" the house museum of the 1st Lithuanian president.

With this event in Vilnius and Ukmerges we were able to reach the project's target audience "the "daughters" (40 to 50 year old generation) and the "granddaughters" (15 to 30 year old generation) of women who were immortalized by the actions they developed and by the assumption of their right to be citizens. Our main target audience made up of the binomials Woman - mother, wife - daughter, was and is fundamental in the political and social struggles, so that today we can live in Freedom and Democracy". We were able to carry out with great quality the actions that we proposed to do, namely the conference, round table, and cultural visits.

We were able to carry out with great quality the actions that we proposed to do, namely the conference, round table, and cultural visits. In this way we have achieved, as we proposed, an exchange of experiences between the parties involved, with a constant encouragement of citizen's active participation in European social and political life. We continued in this event to create a solid and lasting relationship of cooperation between all local and foreign partners, which translated into an opportunity for broadening perspectives, cultural enrichment, and human development for the participants.
